## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/2/06 has been entered.

### ***102 Rejections Withdrawn***

The rejection of claims 1, 2, 5-8 and 10-14 under 35 USC 102(b), outlined in the first Office Action and maintained in the Final Office Action, has been overcome by applicant's amendment and arguments. Applicant's amendment and arguments have been carefully considered and are persuasive, vide infra.

### ***Allowable Subject Matter***

Claims 1, 2, 5-8 and 10-14 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art appears to be WO 02/50017 A1, prior art of record. As applicant cogently argues in the remarks accompanying the RCE, and in light of applicant's amendment, the prior art may be said teach away from applicant's invention.

Art Unit: 1621

This is, in particular, true with respect to catalyst pretreatment (see WO 02/50017 A1 Examples).

The examiner is now in agreement with applicant that the cited prior art neither teaches nor suggests the instant process. Nor would it have been obvious to one of ordinary skill in the art at the time of the invention to modify the process of the prior art in order to arrive at that of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
